Project Brief: Food Delivery Mobile App

Prepared by: Spice Route Foods

Requirements

We want a food delivery app like Swiggy for our 3 restaurants. Android and iOS apps for customers to browse menus, order, pay online with UPI, and track the delivery rider live on a map. A separate rider app with navigation, a restaurant dashboard for orders and menu, coupons, ratings and reviews, push notifications and a sales report for the owner. Budget is around Rs 3 lakh and we want to launch in 2 months.
